SUMMARY

IT professional at Bunna Bank with a background in DevSecOps, identity and access management, API integration, and AI engineering. I design secure pipelines, integrate enterprise systems, and apply machine learning and agentic AI systems to real-world problems. Graduate of 10 Academy's AI Agent Engineering program (TRP) and Kifiya AI Mastery program.

EXPERIENCE

Bunna Bank June 2026 – Present
Digital Connectivity and Platform Officer

- Integrating applications with third-party services using Spring Boot and Kafka.
- Automating build, Dockerize, test, and push workflows to the container registry via GitLab CI/CD.

Bunna Bank April 2024 – June 2026
Junior IT Officer — Security & DevSecOps

- Managed Identity and Access Management using WSO2IS with OAuth and SAML protocols.
- Built and maintained DevSecOps pipelines integrating SonarQube and OWASP ZAP for automated security testing.
- Deployed and configured the Elastic Stack (Filebeat, Logstash, Elasticsearch, Kibana) for centralized log monitoring.
- Conducted user access reviews in Odoo and built compliance dashboards using Grafana and Superset.

InterTechHub November 2024 – May 2025
Data Scientist Intern

- Built end-to-end data pipeline and Tableau dashboard for e-commerce sales analysis.
- Developed HR attrition predictive model using Logistic Regression, Random Forest, and Decision Tree.

InterTechHub August 2023 – April 2024
Software Engineer

- Supported software implementation, documentation, and ICT knowledge training delivery.

10 Academy — TRP Program February 2026 – May 2026
AI Agent Engineering · AI Evaluation Engineering · Forward Deployed Engineering

10 Academy — Kifiya AI Mastery May 2025 – August 2025

TECHNICAL SKILLS

AI & Agents	LLMs, Agentic Workflows, RAG, FAISS, Llama2, XLM-Roberta, MLflow, LLM Evaluation
Data Engineering	PostgreSQL, SQLite, MongoDB, dbt, Dagster, Kafka, Elasticsearch, Tableau, Pandas, NumPy
DevOps & Security	WSO2IS, OAuth 2.0, SAML, SonarQube, OWASP ZAP, Elastic Stack, Grafana, Docker, GitLab CI/CD
Core Engineering	Python, Java (Spring Boot), JavaScript (React, Node.js), FastAPI, REST APIs, SQL

KEY PROJECTS

Automation Auditor

Python · LLMs · Multi-agent · Dialectical Reasoning

Multi-agent code evaluator with 3 LLM judges debating code quality through structured argumentation.

Document Intelligence Refinery

RAG · Vector Store · LLMs · FastAPI

Intelligent document Q&A system using RAG with adaptive chunking and multi-format ingestion.

Shipping Data Platform (Week 7)

PostgreSQL · dbt · YOLOv8 · FastAPI · Dagster · Telethon

End-to-end ELT data platform scraping Ethiopian medical Telegram channels, running object detection, and exposing analytics.
